PROFARM

Herb On

AGAINST HAIR LOSS

THE **HERB ON** SERIES includes natural plant extracts of horsetail, birch, nettle, ginseng, soybean and wheat sprouts, which prevent hair loss. What is more product contains and moringa oil, castor oil and keratin.

The series includes: shampoo, mist, spray and conditioner.

Each of the ingredients of the series has different active ingredients, which will allow you to comprehensively deal with the problem of hair loss. The **Herb On** series is a guarantee of hair improvement and reduction of hair loss.

FUNCTIONALITY

Herb On shampoo is intended for the daily care of weakened and falling out hair. The shampoo, in addition to the optimally balanced combination of washing substances, contains natural plant extracts that have been used for generations to improve the condition of the hair: horsetail extract, ginseng extract, soybean and wheat germ extract, panthenol (provitamin B5).

Herb On anti-hair loss spray, based on herbal active substances, the hair and scalp lotion is intended for use in the treatment of weakened and falling hair. Effectiveness is guaranteed by the combined effect of extracts from the following raw materials: FIELD - rich in silicon, makes the hair elastic and strengthens it. MEDICINAL ROSEMARY - stimulates hair bulbs to grow. BIRCH - has anti-inflammatory properties, has a cleansing and refreshing effect, giving the hair a shiny and healthy look. NETTLE - prevents dandruff, tones and strengthens the hair roots. PANTHENOL - actively moisturizes and soothes all kinds of skin irritations.

Herb On conditioner is intended for use with weakened and falling out hair. The conditioner, in addition to the unique conditioning base that covers the hair surface without weighing it down, contains natural plant extracts that have been used for generations to improve the condition of the hair. The presence of Panthenol (provitamin B5), which moisturizes the hair fiber, makes the hair susceptible to combing, reduces the tendency to split ends, improves the condition of damaged hair, thickens it and soothes all kinds of skin irritation. The combined action of active substances makes the hair regain its healthy appearance and prevents its increased loss.

HERB ON

HERB ON HAIR SHAMPOO

Nutralan Keratin strengthens and protects hair, prevents hair breakage and solubility in alkali. Panthenol - moisturizes, helps to discipline your hair and makes it smooth.

A daily care shampoo suitable for normal and damaged hair as well as to counteract hair breakage. It contains not only an optimal blend of cleansing agents but also keratin and panthenol which additionally moisturise and strengthen hair follicles, preventing hairbreakage.

RETIVIL DUO

VITILIGO

VITILIGO

Vitiligo is a chronic skin disease that is associated with damage and, consequently, destruction of melanocytes, i.e. pigment cells found in the basal layer of the epidermis. As a result of the disease, vitiligo lesions appear on the patient's skin in the form of milky white, non-scaly spots with clear boundaries. These changes are painless and not inflammatory. Vitiligo affects about 1-2% of the world's population. The disease develops regardless of gender, age or race.

How can its symptoms be treated? By applying **RETIVIL DUO**

RETIVIL DUO

Profarm has developed an innovative dermocosmetic dedicated to people suffering from depigmentation with skin diseases, the distinguishing feature of which is the aesthetic two-chamber packaging. To functional solution enabling the separation of active substances - we are talking about DHA and erythulose with the amino acid glycine - which start working only when the change is applied. These compounds initiate a color reaction that mimics the natural color of human skin. This effect lasts for a few days and, importantly, is resistant to washing.

WHY RETIVIL DUO?

- 1 Durability and repeatability of the result
- 2 Safe and effective masking of skin lesions
- 3 Improving the quality of life of people with vitiligo
- 4 Comprehensively nourishes and moisturizes the skin
- 5 The skin looks healthier and more radiant

Fearing the complications of vitiligo treatment, many patients give up treatment and try to camouflage skin lesions with makeup or a self-tanner. This is cumbersome and provides a temporary effect. Fortunately, a new product has appeared on the market that can change the lives of people with vitiligo -

ACNE PRO-DERM

ACNE

The main problem of acne-prone skin is improper functioning of the sebaceous glands, which are additionally clogged at the skin by exfoliating epidermis cells. Acne skin needs special products for its care and cleansing.

The **ACNE PRO-DERM** line is the perfect solution for people struggling with skin imperfections. Five amazing products that focus on cleansing, unclogging pores, preventing breakouts, toning and moisturizing. A properly selected set of active substances contained in **ACNE PRO-DERM** products (bisabolol, niacinamide, PCA zinc, sugar leaf extract, lavender oil and phytopeptides) will quickly improve the quality of the skin, restoring its healthy appearance, without imperfections.

The **ACNE PRO-DERM** series, intended for the care of acne, oily and combination skin includes:

1. Balancing night cream
2. Balancing day cream
3. Point serum
4. Cleansing foam
5. Balancing and matting tonic

PRODUCTS:

ACNE-PRONE SKIN Normalizing night cream:

The cream gently exfoliates the epidermis and reduces the secretion of sebum. It reduces the tendency to develop new acne lesions. As a result, the skin is smoothed and less rough, and the visibility of imperfections is reduced.

- gently exfoliates the epidermis
- reduces the secretion of sebum
- reduces imperfections
- visibly unblocks pores
- 50ml/ 1,7 OZ

Price: \$ 5

ACNE-PRONE SKIN Normalizing day cream:

The light texture of the cream and the combined action of active ingredients effectively soothes irritations, improving the quality of the skin and restoring its healthy appearance, without imperfections.

- soothes irritations
- controls the secretion of sebum
- reduces the visibility of pores
- reduces imperfections
- 50ml/ 1,7 OZ

Price: \$ 6

ACNE-PRONE SKIN SERUM for spot care

The cream serum targets acne lesions directly, reducing their visibility. It improves the condition of the skin, restoring its healthy appearance day by day. The advanced formula prevents inflammatory reactions and supports the regeneration process.

- prevents inflammatory reactions
- reduces the visibility of acne lesions
- restores the healthy appearance of the skin
- 30ml/ 1 OZ

PRODUCTS:

ACNE-PRONE SKIN cleansing foam

The foam gently and effectively cleans the skin of impurities and toxins without irritating it.

- reduces the amount of sebum secreted
- regulates the work of the sebaceous glands
- gently tightens pores
- 150ml / 5 OZ

Price: \$ 6

ACNE-PRONE SKIN normalizing-mattifying tonic

The alcohol-free tonic comprehensively and comprehensively cleanses the skin, significantly improving its appearance. The skin is soft, moisturized and refreshed.

- gently tightens pores
- regulates the work of the sebaceous glands
- reduces the amount of sebum secreted
- refreshing, tones and does not dry out the skin
- 200ml/ 6,7 OZ

Price: \$ 6
